***Response to Arguments***

Applicant's arguments stated in the remarks on pages 3-6 filed 7/6/2005, with respect to claims 1, 2 and 11 have been fully considered and are persuasive. The rejections of these claims have been withdrawn.

***Allowable Subject Matter***

Claims 1-30 are allowed.

The following is an examiner's statement of reasons for allowance: Rigby et al (US 3,970,926) discloses a method and apparatus for correlating (column 8, lines 44-57). Rigby measures time intervals and a difference in time intervals is determined (column 2, lines 51-64). The difference determines how much of a time shift has taken place (column 8, lines 46-62). Rigby does not disclose calculating a difference between the stored starting time and a starting time associated with the identified feature relative to a boundary of a reference data sequence when the measured time interval matches one of the valid interval values as stated in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
